We'll keep a record of this conversation for both of us to refer to. Also, for your security, please don't reveal any personal information $\neg$ (like your account number) unless we ask you.

17:19, Mar 10

You: Hi, i have a problem with my TD Cash back account

Info: Milton is ready for you.

17:20, Mar 10

Milton: Hi there! What would the issue be?

17:20, Mar 10

You: I was looking at the balance and the sudden increase it got on the start of this month statement

17:21, Mar 10

You: last statement end at 29.49

17:21, Mar 10

You: but this month statement start at 168.51

17:21, Mar 10

Milton: I can certainly take a look for you, I'll be back with you

17:26, Mar 10

Milton: Thank you for your patience! You are correct, this is indeed an error. We are currently still working on fixing this bug, essentially what caused this is that the system added up your first transaction of the current statement to your balance and added up your latest payment as well into the starting balance. It is a known issue we are working on fixing and please note that it does not actually reflect your correct balance and everything will appear in order once you receive your next statement at the end of the month

17:27, Mar 10

You: oh, ok then. thats good to know

17:27, Mar 10

You: thank you

17:28, Mar 10

Milton: My pleasure to clarify this for you, your real balance at this time is 67.78\$

17:28, Mar 10

You: ok, thanks for the help
